24-HOUR HACKATHON
(HARDWARE & SOFTWARE EDITION)

ABOUT MAKE-A-THON 7.0

Make-A-Thon 7.0 is a National Level 24-Hour Hardware and Software Hackathon organized by the Department of Electronics and Communication Engineering, Sri Venkateswara College of Engineering, in association with RACE, IETE-SF and ECEA.

The event brings together innovative engineering students from multiple institutions to design and develop real - world technological solutions through rapid prototyping, collaboration and mentorship.

Sponsors gain direct access to a highly skilled student community, enabling opportunities for brand visibility, talent engagement, innovation collaboration, and recruitment outreach.

SPONSORSHIP LEVELS: CHOOSE YOUR COMMITMENT

PLATINUM

₹50,000

- Onsite Branding
- Workshops & Webinars
- Media Relations
- Social Media Promotion
- Jury Participation
- Hosting Opportunity
- Internship Provision
- Promotion on Website and Invites
- Certificate and ID card Branding
- Pre/post event email outreach
- On Campus stall
- Title Sponsorship

GOLD

₹ 35,000

- Onsite Branding
- Workshops & Webinars
- Media Relations
- Social Media Promotion
- Jury Participation
- Hosting Opportunity
- Promotion on Website and Invites
- Certificate and ID card Branding

SILVER

₹20,000

- Onsite Branding
- Workshops & Webinars
- Media Relations
- Social Media Promotion
- Jury Participation
- Hosting Opportunity
- Promotion on Website and Invites

BRONZE

₹10,000

- Onsite Branding
- Media Relations
- Social Media Promotion
- Promotion on Website and Invites

SPONSORSHIP OFFERINGS

Make-A-Thon 7.0 is a National Level 24-Hour Hardware and Software Hackathon organized by the Department of Electronics and Communication Engineering at Sri Venkateswara College of Engineering in association with RACE, IETE-SF, and ECEA. The event aims to bring together innovative students from multiple institutions to develop practical technological solutions through rapid prototyping and collaborative problem solving.

1. BRAND VISIBILITY

Gain strong visibility through banners, certificates, promotional materials, and on-site displays during Make-A-Thon 7.0, reaching a vibrant community of engineering students and faculty.

2. AUDIENCE REACH

Engage with a large and active student audience through digital promotions, social media marketing, and campus outreach, extending brand visibility beyond the event venue.

3. MARKET ENGAGEMENT

Create opportunities for meaningful interaction through brand integration, demonstrations, and event participation, enabling engagement with a technically inclined community.

4. IN-KIND SUPPORT

Support may also be extended through contributions such as certificates, posters, banners, identity cards, stationery, participant kits, and food or refreshments for participants.

INDUSTRY COLLABORATION OPPORTUNITIES

Sponsors can also collaborate with Make-A-Thon 7.0 by:

- Providing industry problem statements for the hackathon
- Offering internship opportunities to top performing teams
- Conducting technical workshops or expert sessions
- Supporting prototype development and innovation initiatives.
- Provide Gift Hampers with your company branding for Winners.
- Provide Goodies / Vouchers / Discount Coupons for Finalists.
- Support Event Logistics, Printing of Materials with your Company Branding.

This collaboration further enables organizations to discover innovative solutions, interact with talented students, and strengthen industry-academia partnerships.
